

Experience. Expertise. Working for you.

NPGD Nonprofit Energy Savings Program

It's no secret that nonprofit organizations all over the country have been hit with high-energy costs. Untimely weather disasters, like Hurricanes Katrina and Wilma, along with unstable global events, have helped fuel a cloud of concerns over uncontrollable energy costs.

NPGD members are now empowered to take control over the spikes in their energy bills by working with one of the nation's top independent energy consultants: Affiliated Power Purchaser International (APPI). As a NPGD member, APPI will analyze your utility bills at no cost to you and determine savings solutions for your organization. Your savings could be 10-25% starting now!

To get started, just follow these 1-2-3 easy steps to Save Money Now!

Log onto www.npgd.org click on programs then energy.

Step 1: Provide a copy of your electricity bill along with a completed Letter of Authorization (LOA can be found on www.npgd.org) on your company letterhead, authorizing APPI to review and competitively bid your account for energy savings options. Fax to 410-749-8769.

Step 2: An APPI consultant will contact you with savings opportunities and recommendations (no obligation).

Step 3: Finalize your decision on the solution that is best for your business.

For more information you can visit the APPI website at www.appienergy.com, email info@appienergy.com, or call **1-800-520-6685**.
